

MAKO

BRIGHTEN YOUR SPORT

———— 2024 ————

OUR STORY

THEN

Mako started life in 2008 through the passion and hard work of founder Jérémie Chapon and business partner (and twice Olympian) Jessica Harrison. The first products they concentrated on were triathlon wetsuits with Jérémie deciding that the only way to find the perfect triathlon wetsuit would be to create it. The objective was to create something completely new. To do that it was necessary to go off the beaten track and try not to be influenced by the products that were already available. They didn't use any existing product as a starting point, wanting to create a completely new suit from the ground up. Using only premium materials Mako suits are simply the best wetsuits your can find for your money. No marketing "bells and whistles" just race tested improvements.

Now, 15 years on, Mako is distributed all over the world. The brand continues to grow, working with many Elite and age group athletes to constantly test and improve the product-range, that now includes FINA validated swimwear, training kit and trisuits. Mako also provides a bespoke service for clubs, with high quality kit for swim, triathlon, cycling and athletics clubs and race organisers.

NOW

With this diversification our objectives have remained clear: providing innovation and quality with great aesthetics.

WETSUITS

Limestone neoprene : we only use Limestone based neoprenes which are principally composed of calcium carbonate. These are more respectful to the environment as they are not petroleum based (like other neoprenes). This type of neoprene also has the advantage of being lighter, more buoyant, more supple and harder-wearing.

All our products are guaranteed for 2 years against manufacturing defects.

// ULTIMATE TORRENT

performance

short course

EXTRA SUPPORT

The Ultimate Torrent is, as the name suggests, a suit that showcases our 15 years of experience of making some of the best wetsuits in the world.

Premium materials, unparalleled freedom of shoulder movement and extreme buoyancy... Simply the fastest! The wetsuit of choice of 2022 World Triathlon Champion Léo Bergère.

ULTIMATE TORRENT

WOMEN	REF -	(XS/S/M/L)
MEN	REF -	(S/M/L/XL)

TECHNOLOGIES

EXTRA SUPPORT the buoyancy of this suit is greatly increased thanks to the presence of Domecell neoprene on many of the panels

MAX MOVEMENT SHOULDERS the shoulders panels have been designed with the arms "at rest" above your head as they would be when swimming thus limiting mechanical fatigue. This combined with #44 cell neoprene, which is the most supple available, makes for incredible freedom of movement

AERODOME two layers of #39 neoprene create a sandwich around a layer of pierced neoprene trapping extra air in the panel for maximum buoyancy

POWER STRETCH this thinner panel of neoprene positioned along the sternum and diaphragm allows you to breathe unimpeded

INVERSED INVISIZIP invisible zip, that reduces water entry. The zip is inversed to open top to bottom

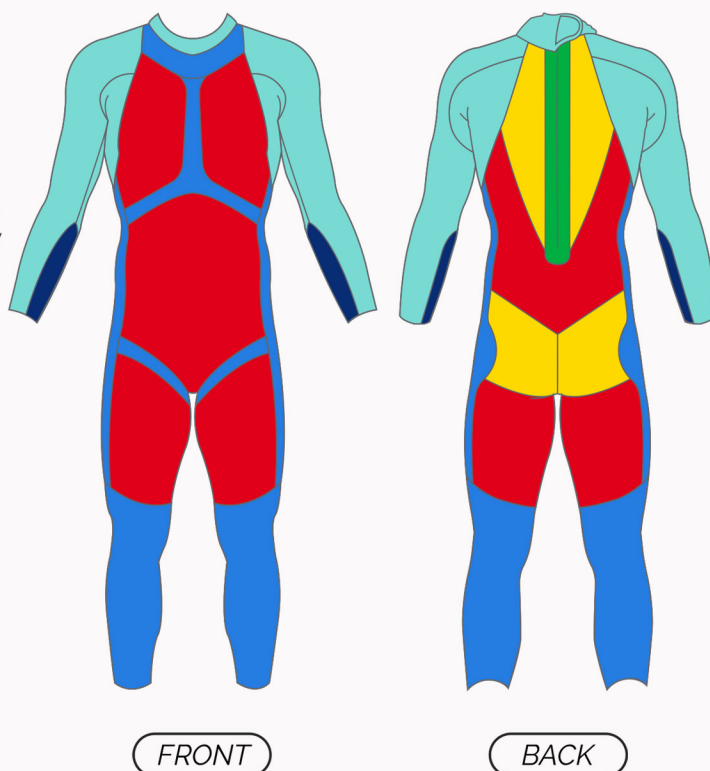

SUPER-STRETCH JERSEY the most elastic jersey on the market that can be stretched equally in all directions 360 degrees!

SOFT TOUCH JERSEY this lycra jersey increases the comfort factor allowing you to slip your wetsuit on and off with ease

LOW CUT COLLAR the collar is low cut to avoid rubbing and that horrible feeling of being strangled!

WATER WINGS we've used water wings intelligent skin on the forearms to keep a real "feel" for the water

	NEOPRENE	OUTER	JERSEY

short course

NATURAL

We have developed this wetsuit to provide for the needs of the pure open water swimmer who requires a product that offers incredible restriction-free movement, a natural position in the water and extreme comfort. After extensive testing we opted for Yamamoto’s #44 SCSnano neoprene for the whole of the arm unit due to it’s astonishing stretchiness which provides a barely-there feel. In designing our OWP wetsuit we drew on our 10 years of experience making some of the best wetsuits in the world.

The OWP has been FINA approved for official open water swimming races (FINA validation number - MK261210)

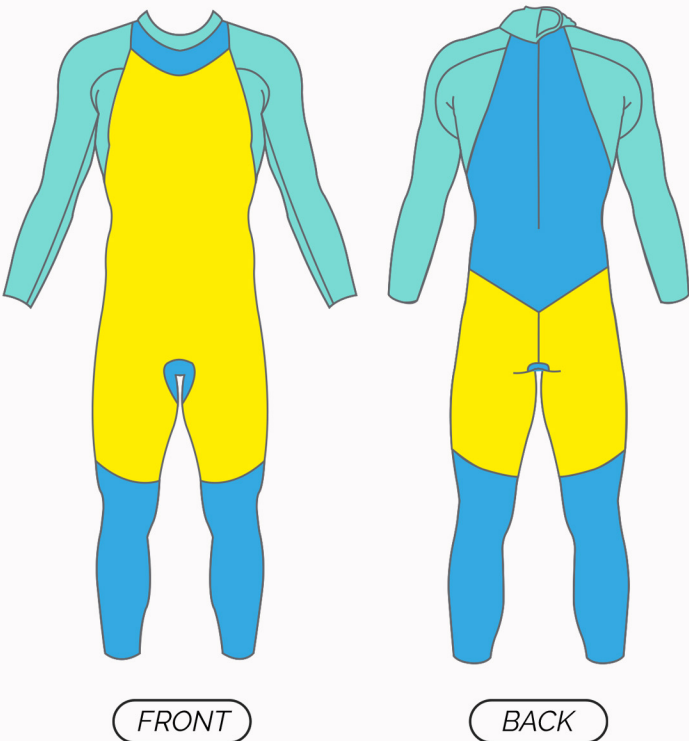

OWP

WOMEN	REF - 1102001	(S/M/L)
MEN	REF - 1101001	(S/M/L/XL)

TECHNOLOGIES

- NATURAL POSITION** this wetsuit offers a "natural" swimming position in the water
- MAX MOVEMENT SHOULDERS** the shoulders panels have been designed with the arms "at rest" above your head as they would be when swimming thus limiting mechanical fatigue
- FINA VALIDATED** the OWP is on the FINA List of Approved Swimwear for use in official competitions
- INVERSED INVISIZIP** invisible zip, that reduces water entry. The zip is inversed to open top to bottom
- SUPER-STRETCH JERSEY** the most elastic jersey on the market that can be stretched equally in all directions 360 degrees!
- SOFT TOUCH JERSEY** this lycra jersey increases the comfort factor allowing you to slip your wetsuit on and off with ease
- LOW CUT COLLAR** the collar is low cut to avoid rubbing and that horrible feeling of being strangled!

// NAMI / NAIAD

performance

long distance

short course

EXTRA SUPPORT

Our Nami and Naiad wetsuits benefit from several of the technical advantages and improvements validated over the last few years on our top of the range models.

The inside is entirely laminated with lycra for extra comfort and the Nami and Naiad are equipped with our Power Stretch panel on the chest which gives unparalleled freedom of movement.

The suits' neoprene outer is 100% Yamamoto #39, making them both lighter (thus more buoyant) and more supple than other wetsuits at this price point.

There is an Aerodome panel present on both thighs for a "pull buoy" effect.

The aim of these models is to offer the best value for money possible whilst offering incredible performance akin to a premium suit.

NAMI (MEN) / NAIAD (WOMEN)

WOMEN	REF -	(S/M/L/XL)
MEN	REF -	(S/M/L/XL/XXL)

TECHNOLOGIES

EXTRA SUPPORT we have added extra floaty panels to the thigh area to give a "pull buoy" effect when swimming

MAX MOVEMENT SHOULDERS the shoulders panels have been designed with the arms "at rest" above your head as they would be when swimming thus limiting mechanical fatigue

AERODOME two layers of #39 neoprene create a sandwich around a layer of pierced neoprene trapping extra air in the panel for maximum buoyancy

INVISIZIP the invisible zip limits water entry and closes from bottom to top allowing ease of closing when solo swimming

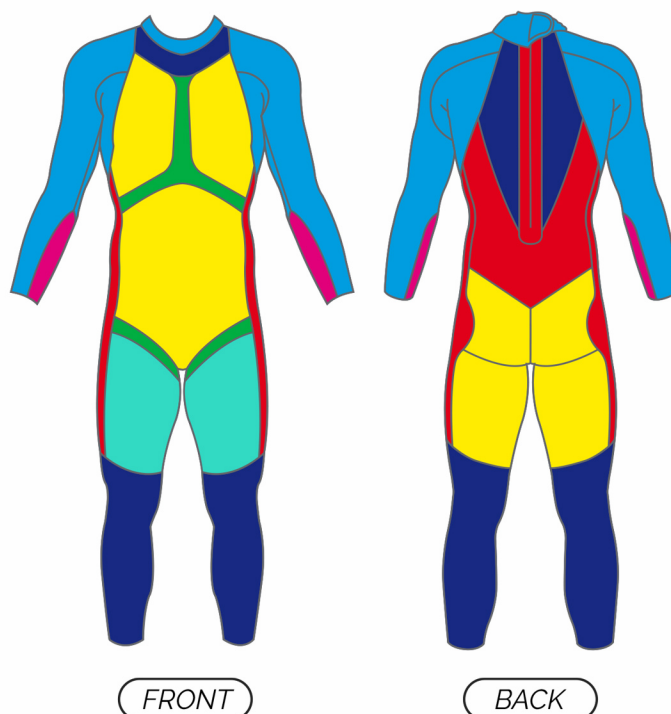

POWER STRETCH this thinner panel of neoprene positioned along the sternum and diaphragm allows you to breathe unimpeded

SUPER-STRETCH JERSEY the most elastic jersey on the market that can be stretched equally in all directions 360 degrees!

SOFT TOUCH JERSEY this lycra jersey increases the comfort factor allowing you to slip your wetsuit on and off with ease

LOW CUT COLLAR the collar is low cut to avoid rubbing and that horrible feeling of being strangled!

	4.5mm	AERODOME (COMBINATION OF YAMAMOTO 39)	SCS

HALI PLUS

performance

long distance

short course

NATURAL

The Hali - meaning "the sea" in Greek - offers the perfect experience for those starting their open water or triathlon adventure.

At an excellent price point, this suit takes advantage of all our 15 years of experience in wetsuit design as well as the unique cut used for the whole Mako range. The Hali is constructed using 100% extra-stretch limestone based neoprene. A low collar to avoid rubbing and soft, stretchy inner jersey make this the ideal companion for your next challenge.

New for 2024 - the Hali plus has all GBS (glued-blind stitched) seams.

HALI PLUS

 SWIMRUN

To develop this product, that has been tailored to the extreme needs and specificities of Swimrun, we used the experiences and ideas of several athletes who have raced multiple Ötillö races.

The challenge was to find the correct balance between comfort, performance and durability. With the Land and Sea's anti-rub panels between the legs and reinforced bottom area and the trademark Mako Ultra-stretch shoulders, we feel confident that our suit has what it takes to help you through the toughest of Swimrun races. Especially when taking into account the body and thigh panels that have been chosen to give balanced bouyancy whilst also keeping you nice and warm.

LAND AND SEA

UNISEX REF - 1131001 (XS/S/M/L/XL)

TECHNOLOGIES

LARGE REAR ZIPPED POCKET in which to carry your nutrition and other race essentials

MAX MOVEMENT SHOULDERS the shoulders panels have been designed with the arms "at rest" above your head as they would be when swimming thus limiting mechanical fatigue

ANTI-RUBBING external jersey on the bottom panels protects your wetsuit from damage

INVISIZIP front and rear 2 invisible zips that limit water entry

ULTRA-STRETCH JERSEY the most stretchy jersey on the market allowing amazing freedom of movement

SAFETY WHISTLE attached to the front zip pull

POWERBAND 0.5mm ultra-thin neoprene in a band at the end of the arms that limits water entry at this point and is highly comfortable

ARM TUBES the Land and Sea wetsuit is delivered with a pair of 2mm thick arm tubes to allow you a maximum of adaptability to all conditions

FRONT ARMS BACK

LS2

With our LS2 Swimrun wetsuit we wanted to complete our range with an economic yet high performance wetsuit. It boasts 100% Yamamoto #39 grade limestone-based neoprene construction and ultra-hard wearing flatlock construction.

On the LS1 you will find anti-rub zones under the arms and on the bottom panels combined with our famous Max-movement shoulders for extreme liberty when swimming.

The LS2 has both a front and rear zip to allow you all configurations of opening and aeration necessary during races and training. This system greatly aids for the ease of cabbng on and off, leaving you more autonomous than with only a front zip.

CLUB CUSTOM

HOW TO ORDER

Chaque commande est différente et sera pilotée par notre équipe spécialisée, le processus de commande est très simple en suivant les étapes ci-dessous :

1/ Contact

Envoyez-nous votre demande. Nous vous enverrons notre bon de commande et répondrons à vos différentes questions.

contact@mako-sport.eu

2/ Design

Nous réaliserons la maquette graphique ensemble. Celle-ci est gratuite si vous commandez.

3/ Test

Nous envoyons les différents produits souhaités en différentes tailles chez vous ou chez notre revendeur le plus proche de chez vous.

4/ Commander

2 possibilités pour commander :

- Vos membres commandent directement sur notre site internet via une boutique en ligne spécialement adaptée pour vous.

OU

- Vous nous envoyez le bon de commande avec vos quantités et tailles.

5/ Réception

Entre 6 et 8 semaines de production.

Réception de la commande chez notre revendeur ou à votre club/entreprise.

Contactez-nous dès maintenant afin de nous parler de votre projet!
